

Three Rivers Heritage Trail - Lower Allegheny Link

Vision

The Allegheny River Trail Action Committee (ARTAC) works to assist ARTEZ in creating essential connections for bicyclists and walkers to safely access the friendly business districts and unique natural amenities within their seven river communities—Millvale, Shaler, Etna, Sharpsburg, Aspinwall, O'Hara, and Blawnox—and those of surrounding areas.

Mission

Our goal is to create safe streets and recreational amenities for people who bike and walk in our communities. The committee aspires to be a strong working group of ARTEZ representing all 7 of their municipalities—Millvale, Shaler, Etna, Sharpsburg, Aspinwall, O'Hara, and Blawnox. We want to ensure that residents and visitors can experience the cultural and natural assets along the corridor by building an expanded network of safe places for people to bike and walk for transportation and recreation. We envision a bicyclist and pedestrian network will include the extension of the Three Rivers Heritage Trail system through all seven of the ARTEZ towns, as well as the development of safe on-street routes for people of all ages and abilities. Through our combined combined advocacy, planning, and development work, we aspire to create even more livable, economically strong, and inviting communities.
