Invite a Friend!

This one-week day camp is intended for children who will be going into kindergarten through 6th grade this fall. Each day, the camp will open with a Bible story and songs, followed by a group physical science activity demonstrating simple machines, robotics, engineering, and other scientific principles. Participating children will gain an appreciation for the orderly world that God created for us to live in. Lunch will be served each day following the activities. On Friday, July 27, each participant's entire family is invited to a free dinner and an opportunity to see the week's accomplishments. The fee for the program is \$5. Scholarships are available.
